

FINAL CLASH NOW AT HAND

Republicans Will Meet in
Tucson Tomorrow and
Battle Fiercely
for Victory

WILL TAFT CONTROL?

Now is the time for all good men to come to the aid of their party. The delegates elected by the Taft and Roosevelt factions of the republican party in this county will leave today for Tucson to participate in the historical reproduction of Bull Run. Some of the delegates will leave this morning as far as to be able to attend the hotel lobby conventions this evening, but the majority of those who will attend will go this afternoon.

A Roosevelt partisan stated yesterday afternoon that nearly all of the Roosevelt delegates will attend in person, ability to attend having been one of the qualifications of their selection. On the other hand, it is said that only a few of the Taft delegates will attend. With one-third of the delegates, the interests of that faction will be well looked after. Henshaw will leave this morning, as will Captain Greenway. M. E. Cassidy will also be among these present.

Convention Meets Today
The state convention, at which delegates to the national republican convention will be selected, will convene at Tucson tomorrow morning. Tucson anticipates the presence of several hundred visitors from different parts of the state.

The entire situation, both sides admit, hinges on the Cochise county delegation. It is doubtful if the Maricopa delegation, either the Taft or Roosevelt selections, have any legal standing. This is the opinion of at least one Bisbee lawyer, a democrat, who says that because the meetings at which the delegations were named were not attended by quorums. In the opinions of lawyers this will eliminate Maricopa county from the contest, and the credentials committee may equally divide that county's representation in the committee. The effect of this will be about the same as if it was thrown out.

Roosevelt leaders in this county are somewhat disgusted with the way the Roosevelt people at Phoenix handled their fight with the Taftists. "We figure, however, that we will win without Maricopa if we succeed in having our Cochise delegation win," said a Roosevelt delegate yesterday. "With Maricopa and Cochise we believe we will have 65 votes in the

The Safe Place

LOOKS AT OUR HUSKY MARINES AND BIG BATTLESHIPS
SHOULD HAVE VERY QUIETING EFFECT ON REBELLIOUS CUBANS

American marines and ships at Cuba.

Although the Cuban government is unable to cope with the rebels, there can be little doubt but that the American marines who have gone down to the island will restore peace

in short order. One good American marine is worth a dozen of the ignorant, untrained blacks who compose the rebel "army." The above map shows Havana, the capital of

the republic; Guantanamo, where the American marines will be stationed; Santiago, the principal city in east Cuba; and other towns in the island where the rebels have been especially active.

Have Up-Hill Fight
The weakness of the situation in which the Roosevelt faction finds itself is that unless they succeed in having their Maricopa and Cochise delegations seated, they stand to lose. Further, as these delegations are being contested, delegations from them may not sit on the committee on credentials, which is in reality the vantage point on the battle line.

It was learned yesterday that the Taft forces will contend before the credentials committee that the Roosevelt delegation is without standing, as they were elected by a committee, the committee of 1911, that they are without certificates of election. It will probably be news to many that the credentials committee have not certificates of election from the county board of supervisors. The Taft delegation will go to the convention armed with a certified statement of the board of supervisors of Cochise county that certificates of election were not issued to committee-men.

Law is Quoted
From this the supervisors evidently believed, it is declared, that the committee-men were in the same category with precinct officers, such as justices of the peace and constables, to whom certificates of election were not issued after the last general election.

The primary election law states that these officers are "precinct" committee-men, and that the county committee is composed of committee-men from each precinct.

The contention of the Taft leaders, who hold that the committee of 1908 still exercises authority, is based on two sections of the primary election law of 1908. This law called for a primary to be held on the first Tuesday of September in 1910, and biennially thereafter.

Article 7 of Section 15 of the law is in part as follows: "Each committee provided for in this section, and its officers, shall have the power usually exercised by such committee and the officers thereof, in so far as is consistent with this act. The various officers and committee-men now in existence shall exercise the powers and perform the duties herein prescribed until their successors are chosen in accordance with this act."

The Taft leaders claim that the 1911 committee-men were not chosen in accordance with this act, as they were elected in October, 1911, instead of in September, as provided by the primary law, and assuming this to be true, they hold that they, as the 1908 committee, is still in existence, and has a right to "exercise the powers and perform the duties" prescribed by the law.

The election in October, 1911, was at the call of the governor, but Taft men say the call did not call for the election of precinct officers. That is the "true invariance" of the brief of the Taft delegation.

If they fail to book the Roosevelt faction with this horn, they will try to score them on the proposition that under the ruling of Chairman Hays, of the Maricopa county committee, proxies in committee meetings are illegal, and that the Bisbee meeting of May 25, at which the Roosevelt delegates were selected, was not legal, there being no quorum present.

AUTHORITIES WATCH CASE WITH INTEREST

Miner Is Segregated Pending
Diagnosis by Health
Officials Monday

A miner named Miner was placed in a temporary detention hospital last night in order that the health authorities might watch the development of his illness, the preliminary symptoms of which have a resemblance to those of smallpox.

The case was reported to County Health Officer L. L. Miner yesterday and that official immediately made arrangements for segregating the case. A temporary detention hospital made of lumber was constructed about three miles below the city, off the county highway, and the man was removed to the place last night.

Following the attack of illness Miner experienced a severe headache, vomiting and an elevation of the temperature. Yesterday morning he developed a slight and as yet a non-typical rash, so it was deemed cautious to segregate the patient. The county health officer and other physicians who are familiar with the case have not diagnosed the case as yet though they are unwilling to call it smallpox. The case will be watched for further symptoms and it may be several days before the character of the illness can be determined.

The rash is typical of neither smallpox nor chickenpox, physicians state, though it is not the same kind of breaking out experienced by Berry, the Douglas telegraph operator, when he was thought to have had smallpox. The authorities will probably be able to state by Monday whether the illness of Miner is smallpox.

DEMOCRAT IS GIVEN POLICE APPOINTMENT

Hill Ruff Succeeds to Position
Formerly Held by
"Lo" Wright

The only political development yesterday in city affairs was the appointment of Hill Ruff, chairman of the democratic precinct committee, as day officer to succeed Lorenzo Wright, newly-elected street commissioner. The appointment was made by City Marshal Bassett Watkins, who disregarded Ruff's party affiliations and considered only his qualifications for the office.

The new city officers took charge of the government yesterday and occupied the several offices at the city hall. Street department work was given a rest until tomorrow. Street Supervisor Wright is taking stock of the equipment of the department.

The new officials are being importuned by numerous office seekers who regard all the appointive offices as legitimate "spoils" of victory but it is said that the head hunters are not receiving much encouragement. No charges are being made against any of the present officials except they be "ins" and the "outs" want to get in. There is an active applicant for the chieftaincy of the fire department, for city sewer commissioner, city blacksmith and one applicant for the position of city health officer.

DISEASE PREVENTION SUBJECT OF LECTURE

County Physician Holds Low-
well Audience Interested
in His Topic

County Health Officer L. L. Miner will give an illustrated lecture on the subject of disease prevention tonight at 8 o'clock at the Lowell club in Lowell, under the auspices of the Lowell Improvement club. In the lecture he will deal with sanitary conditions in the district and their effect on the health of the district. The lecture will be illustrated with lantern slides. The lecture is free and all are invited to attend.

At the request of the county health officer, the management of the Royal theater has secured a moving picture film showing the manner of operation of the housefly in spreading disease. This film is en route and will be shown soon.

Another project on foot is a moving exhibit, Dr. Miner is arranging to purchase the exhibit paraphernalia and when it arrives it will first be placed on exhibition here. Then it will be taken to Douglas, Tombstone, Benson and other county points that desire the exhibit. One of the pieces of the exhibit is an ingenious mechanical contrivance that shows the rapid multiplication of houseflies. The exhibit will deal with pure and impure milk, tuberculosis germs and typhoid germs.

One person dies every two minutes in the United States from tuberculosis and an ingenious way of demonstrating this is an electric light that is mechanically lighted every two minutes, illustrating the fact that every time it lights a person dies of tuberculosis.

WITH THE BOXERS

Tim Hurst has been succeeded by Bill Gibson as manager of the Garden A. C. of New York.

A battle between Mike Gibbons and George Carpenter would show how clever the French champion really is. Jim Flynn says he will weigh in the neighborhood of 200 pounds when he meets Champion Jack Johnson July 4, in Las Vegas.

It is now well known that not more than one case of rheumatism in ten requires any internal treatment whatever. All that is needed is a free application of Chamberlain's Liniment and massaging the parts at each application. Try it and see how quickly it will relieve the pain and soreness. Sold by all dealers.

PETER ZEBICH
Strongest man in the world will appear at Orpheum Sunday, June 2nd, at 4:30 p. m.

Some of the new councilmen are said to be non-committal, which may be taken as an indication that fights may be made on some of the present appointed officials at the council meeting Tuesday night, when the new council holds its first meeting. No "goat" will be safe until after that night.

The new officials gave a smoker for their friends last night at the city hall. Varied refreshments were served and a number of speeches were made.

ORGANIZED WORK FOR CHARITY DOES CREDIT TO BISBEE

District Leads State as to
Systematic Aid for
the Unfortunate

ONLY ONE IS LIKE IT

It should be a matter of interest and pride to the people of Bisbee and the Warren District that they have the only town, with the exception of Phoenix, in all the state of Arizona attempting any systematic or organized charity work.

It is not so much a question as to the relative needs of charity work in Bisbee and Phoenix more than in other places, but it is more a question of enterprise and determination on the part of the citizens to do this commendable work as it should be done. All the big cities and social settlement workers in general are steadily realizing this to be the best and most practical way of distributing charity. This does not imply that other towns are not giving much money along charity lines, but it is often given out indiscriminately, as investigation of many cases reveals the fact that much grafting and deception is practiced by would-be charity recipients when not checked by a system.

Work Done in May.
During the month of May fourteen cases were recorded by the secretary of the charity committee of the board of trade. Seven of these were transients, strangers in town, of whom little knowledge can usually be ascertained. Much discretion is used in dealing with this class, but they are encouraged in some way to rely upon themselves and become self-supporting. Five cases of illness and accident were given substantial help, one of these being a young man without friends or relatives, slowly dying of tuberculosis. Eight families were given help in various ways, some of these being old cases who require help from month to month. Transportation was furnished in three cases. One of these was that of a boy fourteen years of age for whom a good home was secured, who had never before known what a good home would mean to him. Employment was secured for six people, and more than one hundred articles of clothing given out, principally among the needy families.

During the month \$121.70 was expended on account of the work.

Another point in favor of systematic charity which has been of great benefit to the charity committee of the board of trade, is that certain doctors, lawyers and other professional men have always been willing to give their services free of charge when called upon. These services have been much appreciated, not only because of the saving of expense to the committee, but because of the confidence shown by such parties in organized charity work.

MATTER OF FACT IS THIS WEDDING PARTY

Couple Appears in Working
Clothes Upon All Im-
portant Occasion

Dressed in their working clothes, and without having made any of the conventional preparations except procuring a license, Juan Rodriguez and Augustina Bese, a Mexican couple, appeared before Judge High and asked that they be united in marriage in conformity with the laws of the United States and state of Arizona. It is said that the warning was hastened by a warning from federal officials.

Numerous cases in which Mexicans live together as man and wife without having been married have come to the attention of Bisbee officers. Recently a Mexican couple were in court and the man admitted that they were not married, though they had been living together eight years and had several children.

"The people of the southwest," said a court attendant, "have a serious problem in this respect, a problem that is nearly as serious as the race problem in the south, though in a different particular. It is incumbent on the ruling race to look after the morals and manner of living of the intellectually and morally inferior races. The education of Mexicans in this part of the United States is looked after, but the moral side of their lives is not inquired into. This is a serious responsibility upon the white race in Arizona and New Mexico. It is customary for Americans to regard Mexicans as 'only Mexicans' and to shirk the responsibility, but the day will come when they must face it or take the consequences."

VERDICT A MAIN-LAW JOKE.
Mercy Penalty for Beating Her But 30 Days in Wife's Case.

PITTSBURGH, June 1.—"For beating his wife, guilty as indicted," for beating his mother-in-law, recommended to the mercy of the court."

On this verdict, returned in court, Joseph Nolejda, a machinist, was sentenced to pay the costs, a fine of \$14 cents and serve 30 days in jail.

TO GIVE DANCE

T. F. B. Lodge No. 452, will give a dance Wednesday, June 5, in K. P. Hall. Invitations have been issued. A good time to all present. Lemonade will be served and Brennan's orchestra will furnish music.

City Cleaning & Dye Works

R. O. Owen F. S. Davenport
(Successors to M. & O. Co.)

We buy a ready made suit. We can furnish you in the very latest styles of Spring and Summer goods from \$17.50 and up. Our suits fit perfectly and—Hold their shape permanently—There's a reason—Measurements taken by a competent tailor. We are especially equipped with a modern machinery cleaning plant. Let us clean and press your old suit. Hats cleaned and blocked—Panamas bleached and blocked by a man unexcelled as a Hatter.

Our motto: Work others cannot do.

PHONE 47
Emporium Building

Brief Local Items

Taken to Tombstone.
James Butler, the man who was taken into custody by officers Friday, was taken to Tombstone yesterday where he will be examined by the county sanitary board. He appears to be violently insane and it was necessary to strap him in the automobile.

H. S. Alumni Meet.
The Bisbee high school alumni association held a meeting last night at the Central school building at which time the class of 1912 joined the association by signing the constitution. Ed Hicks succeeded Bob Beaton as president and Bob Beaton succeeded C. E. Wittig as secretary.

Ball Player Arrives.
The Bisbee club of the Tri-Town league has a new pitcher in the person of A. J. Heibert, a mine engineering student at the University of Arizona, who arrived in the city yesterday to work in the mines. He was the star twirler of the varsity ball team and he will play with the Bisbee team.

Prompt Payment Made.
One of the quickest payments of fire insurance premiums on local record was that made by the Philadelphia fire insurance company to Mrs. Kate Manley, whose house on Tank hill was destroyed by fire on May 17. Ten days after the date of the fire \$500 was paid to Mrs. Manley by check and \$200, the Bisbee agents for the Philadelphia and other insurance companies. The rapid handling of the matter was greatly appreciated by Mrs. Manley.

Band Concert Today.
The Calumet & Arizona band will give a free open air concert this evening at 7:30 o'clock at Warren park, at which the following program will be given:
March—Moultonion Buhalts
Overture—Ideal Daniels
Waltz—Remembrance Joyce
Medley—"Sweet Old Songs" Halby
Baritone Solo—"Hesperia" Mastin
Soloist, Jack Watson
Selection—"The Delight"
Latest Song Hits O'Hare
Sketch—"By the Swanee River"
Selection—Faust Myddleton
Leader, F. J. Hawden Gonnad

SUPERSTITIOUS SAY THEY ARE VINDICATED

Three Accidents Follow One
Another within the
Twenty-four Hours

Three accidents within twelve hours at the Oliver shaft yesterday gave point to the superstition existing among miners that mine accidents come in threes. None of the accidents were fatal and only one of them was serious but it is seldom that the trio happens at the same shaft.

The more serious accident occurred at the Oliver Friday afternoon at 2 o'clock, when W. L. Ballard sustained two broken ribs in an accident. He was taken to the hospital for treatment. Ballard resides on Naco road.

George Ellis, a miner at the Oliver, strained himself by trying to lift a heavy weight and was taken to his home in an ambulance. Two hours later, at noon yesterday, Sanford Harlin, who resides on Tombay avenue, sustained a crushed foot at the shaft and was taken to his home.
